As a first-year IT student, I am deeply passionate about UI/UX design with a growing understanding of design principles. I am eager to contribute as an intern on a vibrant design team, where I can apply my creativity, problem-solving skills, and dedication to enhancing user experiences. Committed to learning and evolving through mentorship and hands-on projects, I am enthusiastic about the opportunity to collaborate on innovative designs that positively impact user satisfaction.

SKILLS

- User Research and Usability Testing
- Proficiency in design tools like Figma and Adobe XD
- Wireframing and Prototyping
- Web, mobile application designer
- UI Development
- Prompt Engineering
- Cross-functional Collaboration and Team Leadership

EDUCATION

IMSC.IT
 silver oak university | 2024-2029

HIGHER SECONDARY
Dipak Shikshan Sankul| 2021-2023

PROJECT

COLLEGE PROJECT: LEAD UI/UX DESIGNER
- Role: Led UI/UX design for college website redesign, focusing on usability improvements.
- Responsibilities:
- Conducted user research to identify student and teacher needs.
- Created prototypes using Adobe XD and Figma.
- Developed user personas and journey maps.
- Collaborated cross-functionally to ensure design feasibility and alignment with project goals.

PERSONAL PROJECT: UI/UX IMPROVEMENT
- Description: Enhanced usability and aesthetics of various interfaces through iterative design.
- Approach:
- Gathered user feedback to inform design iterations.
- Utilized Figma for prototyping and refining design solutions.
- Improved understanding of user needs and preferences.
- Implemented changes based on user insights to optimize user experience.
-
